## Spectrum (Say My Name) by Florence + The Machine

When we first came here	And every color illuminates
We were cold and we were clear	We are shining
With no colours on our skin	And we will never be afraid again
We were light and paper thin	Say my name
And (1) we first came here	And every color illuminates
We were cold and we were clear	We are shining
With no colours on our skin	And we will never be afraid again
Till we let the spectrum in	Say my name
Say my name	And every color illuminates
And (2) color illuminates	We are shining
We are shining	And we will never be afraid again
And we will never be (3) again	Say my name
Say my name	And every color illuminates
And every color illuminates	And we are shining
We are shining	And we will never be afraid again
And we will never be afraid again	Say my name
Say my name	As every color illuminates
And every color illuminates	Say my name
We are shining	As (5) color illuminates
And we will never be afraid again	We are shining
And when we come for you	And we will (6) be afraid again
We'll be (4) up all in blue	Say my name
With the ocean in our arms	As (7) color illuminates
Kiss your eyes and kiss your palms	We are shining
And when it's time to pray	And we will never be (8) again
We'll be dressed up all in grey	Say my name
