True Colors by Cyndi Lauper

Fill in the gaps

You with the sad eyes	Your true colors
Don't be discouraged	(Your) (14) colors
Oh I (1) It's (2) to (3)	Are beautiful like a rainbow
courage	(Can't remember
In a (4) full of people	When I (15) saw you laughing)
You can lose sight of it all	If (16) world (17) you crazy
And the darkness now inside you	You've taken all you can bear
Make you (5) so small	You call me up
But I see your true colors	Because you know I'll be there
Shining through	And I see your true colors
I see (6) true colors	Shining through
And that's why I (7) you	I see your true colors
So don't be afraid	And that's why I love you
To let them show	So don't be afraid
Your true colors	To let (18) show
True colors	Your true colors
Are beautiful (8) a rainbow	True colors
Show me a smile then	True colors
Don't be unhappy	Shining through
Can't (9) when I	I see your true colors
Last saw you laughing	And that's why I love you
If this (10) makes you crazy	So don't be afraid
And you've taken all you can bear	To let them show
You (11) me up	Your (19) colors
Because you know I'll be there	True colors
And I see your true colors	Are beautiful
Shining through	Like a rainbow
I see your (12) colors	
And that's why I love you	
So don't be afraid	
To let (13) show
