## Fill in the gaps

## From Sarah With Love by Sarah Connor

| For so (1) years we were friends              | I'm sending a letter each day                 |
|---|---|
| And yes I (2) knew what we could do           | From Sarah with (20)                          |
| But so many tears in the rain                 | She took your picture to the stars above      |
| Felt the (3) you said                         | And they told her it is true                  |
| That love had come to you                     | She could dare to fall in love with you       |
| I (4) you (5) not my                          | So don't make her blue (21) she writes to you |
| (6)   | From Sarah with love                          |
| I (7) I could never feel for                  | From Sarah with love                          |
| you   | She'd got the lover she is dreaming of        |
| The passion and love you were feeling         | She never found the words to say              |
| And so you left                               | But I (22) that today                         |
| For someone new                               | She's gonna send her letter to you            |
| And now that you're far and (9)               | From Sarah with love                          |
| I'm (10) a letter today                       | She's gotta (23) what you are                 |
| From Sarah with (11)                          | (24) of                                       |
| She'd got the lover she is dreaming of        | ´cause (25) little now and then               |
| She never found the words to say              | And again and again                           |
| But I know that today                         | I (26) her heart cries out for you            |
| She's (12) send her letter to you             | From Sarah with (27)                          |
| From (13) with love                           | She'd got the lover she is dreaming of        |
| She took your picture to the stars above      | Never (28) words to say, ahh                  |
| And they told her it is true                  | But today, but today                          |
| She could dare to fall in love with you       | From Sarah with love                          |
| So don't (14) her blue when she writes to you | She took your picture to the stars above      |
| From (15) with love                           | And they told her it is true                  |
| So maybe the chance for romance               | She could dare to fall in love with you       |
| Is like a train to catch before it's (16)     | So don't make her blue when she writes to you |
| And maybe it's just an illusion               | From Sarah with love                          |
| To hope behind the clouds                     | Coda:   |
| You'll find the sun                           | And they told her it is true                  |
| But I'll keep on hoping and (17)              | She could dare to fall in love (29) you       |
| There will be a day (18) we meet again        | So don't make me blue when I write to you     |
| And I'll keep on waiting and dreaming         | From Sarah with love                          |
| You're strong enough                          |   |
| To understand                                 |   |
