

My heart still beats

Fill in the gaps

Inside (1) life	So I bid farewell
Under it's spell	The loving hand that saved me
I (2) my eyes	Held too tight
And live to tell	His darkness weighs on me at night
The hands we're (3) will never disappear	People change
Death she (4) near	And instantly
People change	I'm not the (6) girl
And instantly	I used to be
I'm not the same girl	I can't erase all the memories
I used to be	But I can explain
I can't erase all the memories	If you're listening
But I can explain	People change
If you're listening	Not (7) me
People change	I (8) asked or wanted to
Not (5) me	You stepped across my threshold
Locked up in silence	How (9) you?
A living hell
