#### Fill in the gaps

### The Dark Of The Matinée by Franz Ferdinand

Take your (1) finger		Find me in the matinee
Slide the nail under		The dark of the matinee
The top and bottom (2) of		Is better in the matinee
My blazer		The dark of the matinee is mine
Relax the fraying wool		Yes it's mine
Slacken ties and I'm		So I'm on BBC2 now
Not to (3) at you in the shoe		Telling Terry Wogan how
But the eyes find the eyes		I made it and
Find me and follow me		What I (18) is unclear
Through corridors, refectories		But his deference is
And (4) you must follow, leave		And his (19) is
This academic factory		My words and smile are so easy now
Find me in the matinee		Yes, It's easy now
The dark of the matinee		Yes, It's easy now
Is (5) in the matinee		Find me and follow me
The (6) of the (7)	is mine	Through corridors, refectories
Yes it's mine		And files you (20) follow, leave
I time every journey		This (21) factory
To (8) into you		Find me in the matinee
Accidentally I		The (22) of the matinee
Charm you and (9) you		Is (23) in the matinee
Of the (10) I hate		The dark of matinee
All the (11) I hate		Find me and follow me
All the (12) I hate		Through corridors, refectories
All (13) I hate		And (24) you must follow, leave
How I'll (14) be		This academic factory
Anything I hate		Find me in the matinee
You smile, mention (15)	that you like	The dark of the matinee
How you'd have a happy life		Is better in the matinee
If you did the things you like		The dark of the matinee is mine
Find me and (16) me		Yes it's mine
Through corridors, refectories		
And files you (17) follow, leave		
This academic factory
