

## Fill in the gaps

| I know you (1) I shouldn't still love            | Which I'm sure we will                    |
|--------------------------------------------------|-------------------------------------------|
| you                                              | All (19) was there                        |
| Or tell you that                                 | Will be there still                       |
| But if I didn't say it, well I'd still (3) it    | I'll let it pass                          |
| Where's the sense in that?                       | And hold my tongue                        |
| I promise I'm not trying to (5) your life harder | And you will think                        |
| Or return to where we were                       | That I've moved on                        |
| But I (6) go down with this ship                 | I will go down with this ship             |
| And I won't put my (7) up and surrender          | And I won't put my hands up and surrender |
| There will be no white flag above my door        | There (20) be no white flag above my door |
| I'm in love and (8) will be                      | I'm in love and always will be            |
| I know I left too much mess and                  | I will go down with this ship             |
| Destruction to (9) back again                    | And I won't put my hands up and surrender |
| And I caused nothing but trouble                 | There (21) be no white flag (22) my       |
| I understand if you can't talk to me again       | door                                      |
| And if you live by the (10) of "it's over"       | I'm in love and always will be            |
| Then I'm (11) that (12) makes sense              | But I will go (23) with this ship         |
| But I will go down (13) this ship                | And I won't put my hands up and surrender |
| And I won't put my hands up and surrender        | There will be no white flag (24) my door  |
| There (14) be no (15) flag                       | I'm in love (and always (25) be)          |
| (16) my door                                     |                                           |
| I'm in (17) and always will be                   |                                           |
| And (18) we meet                                 |                                           |
