## Fill in the gaps

| Think of (1) without music           | Something has begun               |
|--------------------------------------|-----------------------------------|
| Silence the whole day long           | Bring us all together             |
| Ears that don't hear rhythm          | Moving now as one                 |
| Words without a song                 | When the drums come calling       |
| Just don't know what to do           | The baseline grooves you in       |
| How could I live out my days         | Sounds of regal splendour         |
| Nould I be getting up                | Fit for a king and queen          |
| Pushing my life away                 | Secrets of the universe           |
| When the drums (2) calling           | The (5) of life                   |
| The baseline grooves you in          | And the things (6) don't (7) sens |
| Sounds of regal splendour            | All come clear                    |
| Fit for a king and queen             | 'Cause music (8) me up            |
| Secrets of the universe              | Music takes me up                 |
| The (3) of life                      | Yes, (9) takes me up              |
| And the things that don't make sense | Music takes me up                 |
| All come clear                       | Music takes me up                 |
| Cause music takes me up              | Music takes me up                 |
| Music (4) me up                      | Music (10) me up                  |
| Now that we have the music           | Music takes me up                 |
| There's no turning round             | Yes, music takes me up            |
| Captured in the moment               |                                   |
| All lost in the sound                |                                   |
