### Fill in the gaps

### My Friends Over You by New Found Glory

| I'm (1) off your kiss                     | And I didn't mean to                      |
|---|---|
| For another night in a row                | Lead you on                               |
| This is becoming too routine for me       | You were everything I wanted              |
| But I did not mean to lead you on         | But I just can't finish what I've started |
| And it's all (2) to pretend               | There's no room left here on my back      |
| That we still talk                        | It was damaged long ago                   |
| It's just for show, isn't it              | Though you swear that you are true        |
| It's my fault that it fell apart          | I still pick my friends over you          |
| Just maybe                                | My friends over you                       |
| You need this                             | Just maybe you need this                  |
| And I didn't mean to                      | You need this                             |
| Lead you on                               | And I didn't mean to                      |
| You were everything I wanted              | Lead you on                               |
| But I just can't finish what I've started | You were everything I wanted              |
| There's no (3) left here on my back       | But I just can't finish what I've started |
| It was damaged long ago                   | There's no room left here on my back      |
| Though you swear (4) you are true         | It was damaged long ago                   |
| I still pick my friends (5) you           | Though you swear that you are true        |
| My friends (6) you                        | I still (7) my friends over               |
| Please tell me everything                 | You (8) everything I wanted               |
| That you think that I should know         | But I just can't finish what I've started |
| About all the plans you made              | There's no room left here on my back      |
| When I was nowhere to be found            | It was (9) long ago                       |
| And it's all right to forget              | Though you swear that you are true        |
| That we still talk                        | I still pick my friends over you          |
| It's just for fun, isn't it               | My (10) over you                          |
| It's my fault that it fell apart          |   |
| Just maybe you need this                  |   |
