

## Fill in the gaps

vvoke up to find	But there's this draft inside
I lost my mind	Parts of me drowned
Lost heart, lost nerve	In perpetual tide
I lost my (1) word	I wanna call names
Emily	I wanna throw things around
I take my cigarettes	But no bar can buy
I give 'em a smoke	Forgiveness another round for
(Oh god)	Emily
My heart feels froze	Where does love go
I've lost (2) it seems	If it can't find a home
I've misplaced my favorite thing	One moment (8) then gone
Emily	With no forwarding address
Where does love go	Love no (9) has a house
If it can't (3) a home	Or residence in flesh
One moment here then gone	I go to the bedroom
With no forwarding address	Turn on the light
Love no (4) has a house	It's like an empty altar
Or residence in flesh	No angel in sight
Take the keys	Religion (10) no temple
I get in the car	No place to take my worship to
To out run this	No god for my eyes to see
Man I'd have to go (5) far	No fruit to lay at the feet of
Where (6) wears lace	Emily
And bottles are thieves	Gone
Which of (7) took you from me?	Gone
Emily
