

Fill in the gaps

-So tell me (1) your mother- (en algunas	(5) until tomorrow, so long
versiones)	And it's gone
Doctor, doctor, could you please just give me	Wait until tomorrow
something	You beg and steal and borrow till it's gone
For the state I'm in?	-He don't got a lot but he's got all he needs-
I'm having trouble and society believe	I need someone to love
I got it wrong again	-And all he's got well it's all that he needs-
I'm one month sober	(6) help me (7)
I don't think I'm getting over my predicament	I could hear the voices in the tube
But if I jumped out of the window what would she say?	To get me through anything
It's not on me, it's all on you	I do and anything will do good by me
We can't deny the things we do	A little pill, a little thrill
I can't believe her pretty feet	Should I take it? I think I will
Walked over me, all over me	And anything will do good so
Help me, help me doctor	As long as it's always too good
It seems to be an awful lot for me to understand	Either way I don't give a d*mn
I know I'm not a specimen	What you people all say
The troubles and the mess I'm in	All now boy
I should be dead	It's not on me, it's all on you
He said, let's all think	I can't deny the things I do
Then you've had all your fun	I can't believe her pretty (8)
It's time to be a man	Walked over me, all over me
So you better quit your bitc*ing	It's not on me, it's all on you
Think about (2) the people (3) say	There comes a time to speak the truth
It's not on me, it's all on you	So you can see me (9) I leave
I can't prescribe what you want me to	Walk over you, all over you yeah
You need some sleep, you better leave	
He (4) over me, all over me	
Wait until tomorrow, and it's gone	
So long	

- 1. about
- 2. what
- 3. would
- 4. walked
- 5. Wait
- 6. Somebody
- 7. because
- 8. feet
- 9. when
