Then you've had all your fun
It's time to be a man
So you better quit your bitc*ing
Think about what the people would say
It's not on me, it's all on you
I can't prescribe what you want me to
You need some sleep, you better leave
He walked over me, all over me
Wait until tomorrow, and it's gone
So long

(7)_____ until tomorrow, so long
And it's gone
Wait until tomorrow
You beg and steal and borrow till it's gone
-He don't got a lot but he's got all he needs-

-And all he's got well it's all that he needs-
Somebody help me because

To get me through anything
I do and (9)_____ will do good by me
A little pill, a little thrill
Should I take it? I think I will
And anything will do good so
As long as it's always too good
Either way I don't give a d*mn
What you people all say
All now boy
It's not on me, it's all on you
I can't deny the things I do
I can't believe her pretty feet
Walked over me, all over me

There comes a time to speak the truth
So you can see me when I leave
Walk over you, all over you yeah
