

Fill in the gaps

All the lights agree travelling super speed	For the first time, first time let your light shine
Every road is clear	Oh so brighter that still
Heading to nowhere	Higher higher let your (5) shine
But I feel, I feel so alive for the first time	See it all the other stars
Put your hand to mine and let's blaze across the sky	For the first time, (6) time let your light shin
You'll see there are no way (1) another lips	And no longer feel the night
Because it feels, this feels like us for the first time	Brighter, brighter let your light shine
For the first time, first time, let your light shine	Tonight, tonight we watch the world come to life, to life
Oh so brighter that still	Alive, alive watch the world come to life
Higher higher let your light shine	It will be alright
See it all the other stars	For the first time, first (7) let your light shine
For the first time, first (2) let your (3)	Oh so (8) that still
shine	Higher higher let your light shine
And no longer feel the night	See it all the other stars
Brighter, brighter let your light shine	For the first time, first (9) let your light shine
For the first time	And no longer (10) the night
No (4) rules to break	Brighter, brighter let your light shine
It's your life to waste	For the first time, for the first time
Everything we need	
All that silver screen	
And it feels, feels like your mind for the first time
