

## Fill in the gaps

| I've (1)   | feeling real go | ood                       |  |
|--|-----------------|---------------------------|--|
| Came a long way  | (2)             | misunderstood             |  |
| Far away from the days where I wouldn't wanna go home        |                 |                           |  |
| Because I was afraid of the truth                            |                 |                           |  |
| See I was scared to admit                                    |                 |                           |  |
| that failing was in the back of my head                      |                 |                           |  |
| (3) a  | point when ly   | ing no longer works       |  |
| so you have to stand up for how you want to live             |                 |                           |  |
| Tonight is the night, is the night that we're losing control |                 |                           |  |
| Tonight is the (4)_  | i:              | s the night we set it off |  |
| Everybody go   |                 |                           |  |
| Everybody go   |                 |                           |  |
| And I don't know better                                      |                 |                           |  |
| but as far as I came it felt like forever                    |                 |                           |  |
| Seconds turn to hours days turn to months                    |                 |                           |  |
| Another year pass by   |                 |                           |  |
| But don't feel like much                                     |                 |                           |  |
| So if I got one cha  | nce             |                           |  |
| motherf**ker I'm gonna make you all dance                    |                 |                           |  |
| I'm gonna have as much fun as I can                          |                 |                           |  |

| and figure out the rest when I etch out a plan               |
