

## Fill in the gaps

Do you remember how this first begun?	But it's not funny anymore
Teeth were white and our skin was young	I fear I'll choke unless I spit it out
(1) as bright as the Spanish sun	Still smell of smoke although the fire's gone out
We had nothing we could hide	Can't (13) with you but I'd die without
Now my dear we are two golden leaves	So what's left to say (14) every word's
Clinging (2) to winter trees	(15) spoken
(3) up (4) like a pair of thieves	What's left to see when our eyes won't open
While the sirens blare outside	What's (16) to do (17) we've lost a
What's (5) to say (6) every word's	hope and
(7) spoken	What's (18) to break when our hearts are broken
What's (8) to see when our eyes won't open	But sometimes
What's left to do when we've lost all hope and	What's (19) to say when every word's
What's left to break when our hearts are broken	(20) spoken
But sometimes	What's left to see when our eyes won't open
Do you remember how this started out?	What's left to do (21) we've (22) a
So (9) of (10) but now we're filled	hope and
(11) doubt	What's left to break (23) our hearts are broken
A (12) joke we used to laugh about	But sometimes
