

## Fill in the gaps

## She Makes My Day by Robert Palmer

	I'll never be lonely now I know her
feel so lucky loving her	She fills my heart with joy, she (12) my day
Tell me (1) else is (2) for	She (13) has to (14) to blow my
She thinks it's better left unsaid	(15) away
She makes her mind up in a glance	She just has to (16) my hand, to make me stay.
t really (3) a difference	I feel so lucky (17) her
(4) to be unconditionally hers	Tell me what else is magic for
She's like a new girl everyday	She thinks it's better left unsaid
And all the rest don't bother me	She makes her mind up in a glance
m far too busy loving her	It really made a difference
'Il never be lonely now I (5) her	I seem to be unconditionally hers
She fills my heart with joy, she makes my day	She's like a new girl everyday
She just has to smile to blow my cares away	And all the rest don't bother me
She just has to touch my hand, to make me stay.	I'm far too (18) (19) her
She's all good loving at once	I'll never be (20) now I know her
She's all (6) loving at once	She fills my heart with joy, she makes my day
She's all good loving at once	She just has to (21) to blow my cares away
She's all (7) loving at once	She just has to (22) my hand, to (23)
Our (8) was unintentional	me stay.
She says we're not responsible	She's all good loving at once
She thinks (9) her chin up	She's all (24) loving at once
She always (10) uncommon sense	She's all good loving at once
Always knows just what to say	She's all good loving at once
She always takes me unawares	She's all good loving at once
n (11) time than it takes to fall,	She's all good loving at once
'm here and there you are	She's all good (25) at once
Ve never fought it anyway	She's all (26) loving at (27)
