

## Fill in the gaps

| Everybody sees me                  | To say why won't you come over here       |
|------------------------------------|---|
| But it's not (1) easy              | Why won't you come over here              |
| Standing in the light field        | We got a city to love                     |
| Standing in the (2) field          | Why won't you come over here              |
| Waiting for some action            | We got a city to love                     |
| Waiting for some action            | Oh time love songs                        |
| No but why won't you (3) over here | We die so swiftly                         |
| Why won't you (4) over here        | You never trust me                        |
| We got a city to love              | For a (6) it was (7) but it's time to say |
| Why won't you come (5) here        | bye                                       |
| We got a city to love              | Oh cold                                   |
| Oh time grudges                    | You're so cold                            |
| We die so slowly                   | You're so cold                            |
| I know you miss the way I saw you  | You're so cold                            |
| And cold                           | No no no no                               |
| Yes I'm cold                       | Cold                                      |
| You're so cold                     | You're so cold                            |
| You're so cold                     | You're so cold                            |
| Nobody can see me                  | You're so cold                            |
| Everything is too easy             | Oh no no no                               |
| Standing in the light field        | Cold                                      |
| Standing in the light field        | You're so cold                            |
| Waiting for some actress           | You're so cold                            |
| Waiting for some actress           | You're so (8)                             |
