You and I go hard	Using my head let it all go
At each other like we're (1) to war	Now you're stuck on my body
You and I go rough	On my body like a tattoo
We keep throwing things and slamming the door	And now I'm feeling stupid
You and I get so damn dysfunctional	Feeling stupid crawling back to you
We stopped keeping score	So I cross my heart and I hope to die
You and I get sick	That I'll only stay with you one more night
Yeah I know that we can do this no more	And I know I said it a million times
But baby (2) you go again	But I'll (7) stay with you one (8) night
There you go (3) making me love you	Yeah baby give me one more night
Baby I stopped using my head	Yeah baby give me one more night
Using my head let it all go	Yeah (9) give me one more night
Now you're (4) on my body	Baby there you go again
On my body like a tattoo	There you go again making me love you
And now I'm feeling stupid	I stopped using my head
Feeling (5) crawling back to you	Using my head let it all go
So I cross my heart and I hope to die	Got you stuck on my body
That I'll only stay with you one more night	On my body like a tattoo
And I know I said it a million times	So I cross my heart and I hope to die
But I'll only stay with you one more night	That I'll only stay with you one more night
Try to tell you no	And I know I said it a million times
But my body keeps on telling you yes	But I'll only stay with you one more night
Try to tell you stop	-Yes baby give me one more time-
But your (6) got me so out of breath	So I cross my heart and I hope to die
I'll be waking up in the morning probably hating myself	That I'll only stay with you one more night
And I'll be waking up feeling satisfied	And I know I said it a million times
But guilty as hell	But I'll only (10) with you one more night
But baby there you go again	-I don't know, whatever, whatever-
There you go again making me love you
