

Will I refrain?

## Fill in the gaps

| Along the way, I find myself                      | Can I repent?                                |
|---|--|
| To be confined within me                          | Will you be there?                           |
| No place for any other's (1) to interfere         | Erase the page                               |
| To grasp the meaning of it all                    | For I'm alone and ailing                     |
| To (2) my limits                                  | Intertwine the lines                         |
| And dance away from any void and empty tones      | That swim beneath the dark                   |
| Just tell me why                                  | Realize the (5) we live in                   |
| Just tell me how                                  | Demonize the need we reel in                 |
| I can survive this time                           | (Nooooooo)                                   |
| Believe yourself and look away                    | In my memories I'll dig deep enough to know  |
| From all that's right within you                  | Centuries of dreams unending                 |
| Leave all your worries at the door and drift away | Another me that yielded tears                |
| I've tried to peer into the core                  | When someone had betrayed                    |
| But could not storm the sorrow                    | So, this is my life                          |
| My hollow heart has bled me dry                   | And it can't break me down                   |
| Left me to stray                                  | Go, I will decide                            |
| Another time                                      | Who can (6) in and heal my disease           |
| Without a trace                                   | Burn it in flames                            |
| Condemn me now                                    | Kill it and maim                             |
| Send me to heaven                                 | Why can't you see that you need to be freed? |
| For I'm (3) failing                               | Intertwine the lines beneath the dark        |
| Intertwine the lines                              | Every bit of pain we're feeling              |
| That swim beneath the dark                        | Every other solemn life                      |
| Realize the pain we live in                       | (Nooooooo)                                   |
| Demonize the need we reel in                      | In the memories, you will find somehow       |
| (Nooooooo)  | There (7) to be a dream unending             |
| In my memories I'll dig deep enough to know       | No more need to be alone                     |
| Centuries of dreams unending                      | Intertwine the lines                         |
| Another me that yielded tears                     | That swim beneath the dark                   |
| When someone had betrayed                         | Realize the pain we live in                  |
| No time should ever go to waste                   | Demonize the (8) we reel in                  |
| It's not that complicated                         | (Nooooooooo)                                 |
| You're free to live your life at ease             | In my (9) I'll dig deep enough to know       |
| No (4) restraints                                 | Centuries of dreams unending                 |
| No heed for shadows on your way                   | Another me that yielded tears                |
| That try to steal your laughter                   | When someone had betrayed                    |
| Your light will drive them all away               | Someone had betrayed                         |
| Be confident                                      |  |
