

## Fill in the gaps

| Lately I've been seeing things               |                                 | But you don't want it now                   |
|--|---------------------------------|---|
| Belly (1)                                    | piercings                       | Now it's getting (15) and the sky (16)      |
| In the sky at night                          |                                 | sticky                                      |
| When we're side by side                      |                                 | More like black treacle than tar            |
| And I don't mean to rain                     |                                 | Black treacle                               |
| On anybody's cabriolet                       |                                 | Somebody (17) the stars                     |
| One of those (2)                             | you're going to lose            | You're not (18) out tonight                 |
| But you (3) t                                | o play it just in case          | And so they found a (19) to hide            |
| Now it's getting (4) and the sky (5)         |                                 | And now I'm out of place                    |
| sticky                                       |                                 | And I'm not getting any wiser               |
| More (6) (7)                                 | treacle than tar                | I feel like the sundance kid                |
| Black treacle                                |                                 | Behind a synthesizer                        |
| Somebody told the stars                      |                                 | And I tried (20) night to pack away a laugh |
| You're not coming out tonight                |                                 | Like a key (21) the mat                     |
| And so (8) (                                 | 9) a place to hide              | But it never (22) to be there               |
| Does it help you stay up late?               |                                 | When you (23) it                            |
| Does it (10)                                 | you concentrate?                | Black treacle                               |
| Does it (11)                                 | you in when you chew your chin? | Black treacle                               |
| Am I ruining (12)                            | fun?                            | Black treacle                               |
| And you talk the talk alright                |                                 |   |
| But do you walk the (13) or catch the train? |                                 |   |
| You (14) it, you got it                      |                                 |   |
