

But I don't anymore

Fill in the gaps

Forever And Always by Taylor Swift

Once upon a time, I believe it was a Tuesday	And I stare at the phone and he still hasn't called
When I (1) eye	And then you feel so low, you can't (17) nothin' at
And we caught onto something, I hold on to the night	all
You looked me in the eye and (3) me you loved me	And you (18) to (19) he
Were you just kidding? 'Cause it seems to me	said forever and always
This thing is (4) down, we almost never	Oh, oh
speak	Oh, and it rains in your bedroom, everything is wrong
don't feel welcome anymore	It rains when you're here and it rains when you're gone
Baby, (5) happened? Please tell me	'Cause I was there when you said forever and always
Cause one second it was perfect	You didn't mean it, baby, I don't think so
Now you're halfway out the door	Oh, oh
And I stare at the phone and he still hasn't called	Oh, back up, baby, back up, did you forget everything?
And (6) you (7) so low, you can't	Back up, baby, back up, did you forget everything?
(8) nothin' at all	'Cause it rains in (20) bedroom, everything is
And you (9) to when he said, forever	wrong
and always	It (21) when you're here and it rains when you're
Oh, oh	gone
Oh, and it rains in your bedroom, everything is wrong	'Cause I was there when you said forever and always
t (10) when you're here and it rains when you're	Oh, I (22) at the phone and he still hasn't called
gone	And (23) you feel so low, you can't feel nothin' at
Cause I was there when you (11) forever and	all
always	And you (24) to when we
Was I out of line? Did I say something way too honest	(25) forever and always
That (12) you run and hide (13) a	And it (26) in your bedroom, everything is wrong
scared little boy?	It rains when you're (27) and it (28)
looked into your eyes, (14) I knew you for	when you're gone
a minute	'Cause I was there when you said forever and always
Now I'm not so sure	You didn't mean it, baby, you said forever and always
So here's to everything, coming down to nothing	
Here's to silence that (15) me to the core	
Where is this going? Thought I (16) for a minute
