

## Fill in the gaps

| remember black skies           | So give me reason                |
|--------------------------------|----------------------------------|
| The lightning all around me    | To prove me wrong                |
| (1) each flash                 | To wash this memory clean        |
| As time began to blur          | Let the thoughts cross           |
| Like a startling sound         | The distance in your eyes        |
| That fate had finally found me | Across this new divide           |
| And your voice is all I heard  | And every loss and every lie     |
| That I get what I deserve      | And every truth that you deny    |
| So give me reason              | And each regret and each goodbye |
| To prove me wrong              | Was a (7) too great to hide      |
| To wash this memory clean      | And your voice is all I heard    |
| Let the thoughts cross         | That I get what I deserve        |
| The distance in your eyes      | So give me reason                |
| Now give me reason             | To (8) me wrong                  |
| To fill this hole              | To wash this memory clean        |
| Connect the (2) between        | Let the thoughts cross           |
| Let it fill up                 | The distance in your eyes        |
| To (3) the truths and lies     | Give me reason                   |
| Across this new divide         | To fill this hole                |
| There was nothing left inside  | Connect the space between        |
| The memories left abandoned    | Let it fill up                   |
| There was nothing else to hide | To reach the truths and lies     |
| Te ashs (4) (5) snow           | Across (9) new divide            |
| And the ground caved in        | Across this new divide           |
| Between where we were standing | Across (10) new divide           |
| And (6) voice is all I heard   |                                  |
| That I get what I deserve      |                                  |

- 1. remember
- 2. space
- 3. reach
- 4. fell
- 5. like
- 6. your
- 7. mistake
- 8. prove
- 9. this
- 10. this
