Through The Fire And The Flames by DragonForce

On a cold (1) morning, in the time before the	Running back through the mid-morning light
light	There's a burning in my heart
In flames of death's eternal reign we ride towards the fight	We're banished (8) the time in the fallen land
And the darkness is falling down	To a (9) beyond the stars
And the times are tough all right	In the blackest dreams we do believe
The sound of evil laughter falls around the (2)	Our destiny this time
tonight	And endlessly we'll all be free tonight
Fighting high, (3) on for the steel	And on the wings of a dream so far beyond reality
Through the wastelands evermore	All alone in desperation now the time is gone
The scattered souls will feel the hell bodies	Lost inside you'll never find Lost within my own mind
Wasted on the shores	Day after day this misery must go on
On the blackest waves in hells domain	So far away we wait for the day
We watch them as they go	For the light source so wasted and gone
Through fire, pain and once again we know	We feel the pain of a lifetime lost in a thousand days
So now we fly ever free	Through the fire and the flames we carry on
We're free before the thunderstorm	Now here we stand with their blood on our hands
On towards the wilderness our quest (4) on	We fought so hard now can we understand
Far beyond the sundown, far beyond the moonlight	I'll break the seal of this (10) if I possibly car
Deep inside our (5) and all our souls	For freedom of every man
So far (6) we wait for the day	So far away we wait for the day
For the light (7) so wasted and gone	For the light source so wasted and gone
We feel the pain of a lifetime lost in a thousand days	We feel the pain of a lifetime lost in a thousand days
Through the fire and the flames we carry on	Through the fire and the flames we carry on
As the red day is dawning	
And the lightning cracks the sky
