

Fill in the gaps

I'm (1)	in a retail store	Do you fell like you're (7) under
It's not (2)	I'm cut out for	Under it all?
I live for my brea	aks	And I storm out of work and I take my seat
I know there's (3	3) more	At the front of the bus
So much to explore		And my headphones bleed
But it feels so far away		And right there in a flash
I'm not lost, I'm just finding		With tears on my cheeks
My own way in the world		I can suddenly see
I'm not lost, I'm just finding		We're not lost, we're just finding
My own way in the world		Our own way in the world
In the big old world		We're not lost, we're just finding
Do you ever, do you ever, do you wonder		Our own way in the world
Wonder where your dreams go?		In the big old world
Do you fell like you're falling under		Do you ever, do you ever, do you wonder
Under it all?		Wonder where (8) dreams go?
Do you ever, do you ever, do you wonder		Do you (9) like you're falling under
Wonder where your dreams go?		Under it all?
Do you fell like you're falling under		Do you ever, do you ever, do you wonder
Under it all?		Wonder where (10) dreams go?
I don't (4)	if it's bad or good	Do you fell like you're falling under
Walking down this (5) without you		Under it all?
I don't know quite what I want		Do you ever, do you ever, do you wonder
One thing I've got		Wonder where your dreams go?
Is a good idea of what I'm not		Do you fell like you're falling under
I'm not lost, I'm just finding		Under it all?
My own way in the world		Do you ever, do you ever, do you wonder
I'm not lost, I'm just finding		Wonder where your dreams go?
My own way in the world		Do you fell like you're falling under
In the big old world		I'm not lost
Do you ever, do you ever, do you wonder		I'm just finding
Wonder where (6) dreams go?		My own way
Do you fell like you're falling under		In the world
Under it all?		In the big old world
Do you ever, do	you ever, do you wonder	
Wonder where y	our dreams go?	

- 1. working
- 2. what
- 3. something
- 4. know
- 5. street
- 6. your
- 7. falling
- 8. your
- 9. fell
- 10. your
