

Fill in the gaps

There's a (1) off Ocean Avenue	if I could find you now
Where I (2) to sit and talk with you	Things would get better
We (3) (4) 16 and it (5) so	We could leave (14) town
right	And run forever
Sleeping all day, staying up all	I (15) somewhere, somehow
Night	We'll be together
Staying up all	Let your waves crash down on me
Night	And take me away, yeah
There's a place on the corner of (6) Street	I remember the look in (16) eyes
We would (7) on the beach in our bare feet	When I told you (17) this was goodbye
We were (8) 18, and it felt so right	You were begging me not tonight
Sleeping all day, staying up all	Not here
Night	Not now
Staying up all	We're looking up at the same (18) sky
Night	And keep pretending the sun (19) not rise
If I (9) find you now	We'll be together for one more night
Things (10) get better	Somewhere, somehow
We could leave (11) town	If I (20) (21) you now
And run forever	Things would get better
Let (12) waves crash down on me	We (22) (23) this town
And take me away, yeah yeah	And run forever
There's a piece of you that's here with me	I (24) somewhere, somehow
It's everywhere I go, it's (13) I see	We'll be together
When I sleep, I dream and it gets me by,	Let (25) (26) crash down on me
I can make believe, that you're here	And take me away, yeah yeah
Tonight	
That you're here	
Tonight
