

Fill in the gaps

How long (1) I get in?	The buildings (16) you put up
Before it starts, (2) I begin	Or Japan and China, all lit up
How long before you decide?	The (17) that I couldn't read
Before I (3) what it feels like	Or a light that I couldn't see
Where to? (4) do I go?	Some (18) you have to believe
If you've never tried then you'll never know	But others are puzzles, puzzling me
How long do I have to climb	All that noise and all that sound
Up on the side of this (5) of mine?	All those places I got found
Look up, I look up at night	And (19) go flying at the (20) o
Planets are (6) at the (7) of light	sound
Climb up, up in the trees	To show you how it all began
Every chance that you get	Birds (21) (22) from the
Is a Chance you seize	underground
How long am I (8) stand	If you could see it then you'd understand
With my head (9) under the sand?	(Oh) when you see it then you'll understand
I'll stop before I can stop	All those signs I knew what they meant
Or (10) I see things the right way up	Some things you can't invent
All that noise and all (11) sound	Some get made and some get sent
All those (12) I got found	
And birds go flying at the speed of sound	Birds go flying at the (23) of sound
To show you how it all began	To show you how it all began
Birds (13) flying from the underground	Birds came flying from the underground
If you (14) see it then you'd understand	If you could see it (24) you'd understand
Ideas that you'll (15) find	(Oh) (25) you see it then you'll understand
Or the inventors could never design
