

Fill in the gaps

How long before I get in?
Before it starts, before I begin
How long before you decide?
Before I know what it feels like
Where to? Where do I go?
If you've never tried then you'll never know
How (1) do I have to climb
Up on the side of (2) mountain of mine?
Look up, I look up at night
Planets are moving at the speed of light
Climb up, up in the trees
Every chance that you get
Is a Chance you seize
How long am I gonna stand
With my head stuck under the sand?
I'll stop before I can stop
Or before I see things the right way up
All (3) noise and all that sound
All those places I got found
And birds go flying at the speed of sound
To show you how it all began
Birds came (4) from the underground
If you could see it then you'd understand
Ideas that you'll never find
Or the inventors could never design

The buildings that you put up Or Japan and China, all lit up The sign that I couldn't read Or a (5)_____ that I couldn't see Some (6)_____ you have to believe But others are puzzles, puzzling me All that noise and all that sound All those (7)_____ I got found And birds go flying at the speed of sound To show you how it all began Birds came flying from the underground If you could see it then you'd understand (Oh) when you see it then you'll understand All those signs I (8)_____ what they meant Some things you can't invent Some get made and some get sent Birds go flying at the speed of sound To show you how it all began Birds came flying from the underground If you could see it then you'd understand (Oh) when you see it then you'll understand
