## Fill in the gaps

| I'm (1) make you bend and                          | (Ohhhhhh)                                    |
|--|--|
| I'm gonna make you bend and break                  | They say                                     |
| (It sent you to me (2) wings)                      | I only think in the (8) of crunching numbers |
| Say a prayer, but let the (3) times roll           | In hotel rooms                               |
| In case God doesn't show                           | Collecting page six lovers                   |
| (Let the good times roll, let the good times roll) | Get me out of my mind                        |
| And I want these words to make things right        | Get you out of those clothes                 |
| But it's the wrongs                                | I'm a liner away                             |
| That make the words come to life                   | From getting you into the mood               |
| Who does he think he is?                           | One night and one more time                  |
| If that's the (4) you got                          | Thanks for the memories                      |
| Better put your fingers back to the keys           | Even though they weren't so great            |
| One night and one more time                        | He tastes like you only sweeter              |
| Thanks for the memories                            | One night yeah, and one more time            |
| Even though they weren't so great                  | Thanks for the memories                      |
| He tastes like you only sweeter                    | Thanks for the memories                      |
| One night yeah, and one (5) time                   | See, he tastes (9) you only sweeter          |
| Thanks for the memories                            | (Ohhhhhh)                                    |
| Thanks for the memories                            | One more night (one more night)              |
| See, he tastes (6) you only sweeter                | And one more time (one more time)            |
| (Ohhhhhh)  | Thanks for the memories                      |
| I'm looking forward to the future                  | Even though they weren't so great            |
| But my eyesight is going bad                       | He tastes like you only sweeter              |
| And this crystal ball                              | One more (10) (one more night)               |
| It's always cloudy                                 | And one more time (one more time)            |
| Except for (except for)                            | Thanks for the memories                      |
| When you look into the past (look into the past)   | Even though they weren't so great            |
| One night stand                                    | He tastes like you only sweeter              |
| One night stand                                    | One more yeah (one more night)               |
| One night and one more time                        | And one more time (one more time)            |
| Thanks for the memories                            | Thanks for the memories                      |
