## Don't Tell Me That It's Over by Amy Macdonald

| Tell me why (1) is a mess                | And I wanna see what it's all about |
|--|-------------------------------------|
| I thought you always tried your best     | And I wanna live                    |
| Tell me what I'm ought to do             | Wanna give something back           |
| Maybe you should do it too               | Don't tell me that it's over        |
| Tell me why they're sleeping alone       | It's only just begun                |
| No house no (3) to call a home           | Don't tell me that it's over        |
| Tell me what I'm meant to see            | Or that this song is sung           |
| Won't you stop preaching at me           | The song is sung                    |
| And I (4) see what it's all about        | Don't tell that it's over           |
| And I (5) live                           | Please I'm on my knees              |
| Wanna give something back                | I'm beggin you to stop              |
| Don't tell me that it's over             | It's over please I'm on my knees    |
| It's (6) (7) begun                       | I'm (10) you to stop                |
| Don't tell me that it's over             | And I wanna see what it's all about |
| Or that this song is sung                | And I wanna live                    |
| The song is sung                         | Wanna give something back           |
| All the money in the world               | Don't tell me that it's over        |
| Would never slit all the wrongs to right | It's only just begun                |
| All the fire in the world                | Don't tell me that it's over        |
| Would never set my heart alive           | Or that this song is sung           |
| I dream of a day when it's all gone away | The song is sung                    |
| And the sun is shining bright            |                                     |
| I dream of a day when it's all (8) away  |                                     |
| But (9) are for night                    |                                     |
