## It's A Sin (Live) by Pet Shop Boys

## Fill in the gaps

| When I look back upon my life      |                   | It's a sin                                   |       |
|------------------------------------|-------------------|--|-------|
| It's always with a sense of shame  |                   | Father, forgive me                           |       |
| I've always (1) the one to blame   |                   | I tried not to do it                         |       |
| For everything I long to do        |                   | Turned over a new leaf                       |       |
| No matter when or where or who     |                   | Then tore right through it                   |       |
| Has one thing in common too        |                   | Whatever you taught me                       |       |
| It's a, it's a, it's a             |                   | I didn't believe it                          |       |
| It's a sin                         |                   | Father, you fought me                        |       |
| It's a sin                         |                   | 'cause I didn't care and I still don't under | stand |
| Everything I've ever done          |                   | So I look back upon my life                  |       |
| Everything I (2) do                | )                 | Forever (6) a sense of shame                 | )     |
| Every place I've ever been         |                   | I've always been the one to blame            |       |
| Everywhere I'm going to            |                   | For (7) I long t                             | to do |
| It's a sin                         |                   | No matter when or where or who               |       |
| At school they taught me how to be |                   | Has one thing in common too                  |       |
| So pure in (3)                     | and word and deed | It's a, it's a, it's a                       |       |
| They didn't quite succeed          |                   | It's a sin                                   |       |
| For (4)                            | I long to do      | It's a sin                                   |       |
| No matter when or where or who     |                   | Everything I've (8) done                     |       |
| Has one thing in common too        |                   | Everything I ever do                         |       |
| It's a, it's a, it's a             |                   | Every place I've ever been                   |       |
| It's a sin                         |                   | Everywhere I'm going to                      |       |
| It's a sin                         |                   | It's a sin                                   |       |
| Everything I've (5) done           |                   | It's a, it's a, it's a                       |       |
| Everything I ever do               |                   | (It's a sin)                                 |       |
| Every place I've ever been         |                   |  |       |
| Everywhere I'm going to            |                   |  |       |
