

Fill in the gaps

All I (1) now	And (12) the world (13) to
Is the weight of the day	(14) us
I need you with me	Both of us (15) view
To (2) it away	If you, fade into me
When we disappear (3) each other	Let go, (17) in
Our colors appear and bleed (4) one	Drown in the moment (18) me
Fade into me, (5) (6) you	Sinking 'til we start to breathe
Two of us melting together	Fade (19) me, fade into you
Until we become something new	The two of us (20) together
And we can escape	Until we become something new
And watch the world chasing to (7) us	And we can escape
Both of us (8) from view	And watch the world chasing to find us
If you, fade into me	(Oh) fade into me
Fade into me	Fade into you
When I'm broken	The two of us melting together
You're the one thing I need	Until we become something new
Like an ocean	And we can escape
I (9) you crash over me	And (21) the world chasing to (22) us
We disappear into each other	Both of us (23) from view
Our colors appear and bleed into one	If you
Fade into me, (10) into you	Fade (24) me
The two of us melting together	Fade (25) me
Until we become (11) new	
And we can escape
