While Your Lips Are Still Red by Nightwish

Sweet little words made for silence	Kiss, (5) your lips are (6) red
Not talk	While he's (7) silent rest
Young heart for love	While bosom is still untouched, unveiled
Not heartache	Hold another hand
Dark (1) for catching the wind	While the hand's still without a tool
Not to veil the sight of a cold world	Drown into eyes while they're still blind
Kiss, while your lips are still red	Love while the night still hides the (8)
While he's still silent rest	dawn
While bosom is (2) untouched, unveiled	(Oh)
Hold another hand	Kiss, while your (9) are still red
While the hand's still without a tool	While he's still silent rest
Drown into eyes while they're (3) blind	While bosom is still untouched, unveiled
Love while the night still hides the withering dawn	Hold another hand
First day of (4) never comes back	While the hand's still without a tool
A passionate hour's never a wasted one	Drown into eyes while they're still blind
The violin, the poet's hand	Love while the night still hides the withering dawn
