

Fill in the gaps

Until You're Mine (Live) by Demi Lovato

My state of mind			A way to fill this hole inside		
Has finally got the best of me			I can't (5)	without you here by my side	
I need you next to me			Until you're mine		
I'll try to find				Not gonna be even close to complete	
A way that I can get to you				I won't (6) until youre mine	
I just wanna get to you				Mine	
The world I see is perfect now				Just stop wondering	
You're all around				If we (7) meant to be	
With you I can breathe				Forget about fate and just (8) me	
Until you're mine, I have to find				I'm ready to begin	
A way to fill this hole inside				The waiting has to end	
I can't survive (1)		you (2)	by my	Right now, today	
side				I've gotta find a way	
Until you're mine				Yeah, yeah	
Not gonna be even close to complete				Mine	
I won't rest until you're mine				Until you're mine	
Mine				Until you're mine	
Alone inside			Without you here by my side		
I can only hear your voice				Until you're mine	
Ringing through the no	ise			Not (9)	be even close to complete
I can't (3) my mind			I won't rest Until you're mine		
Keeps on coming back to you			My state of mind		
Always back to you				Has finally got the best of me	
Wanted something out of reach				I need you next to me	
It's (4)	_ me				
You're all I see yeah					
Until you're mine, I have	e to find
