

## Fill in the gaps

Spinning further deeper	And then I close my eyes
I (1) you're out to try me	And then I close my eyes!
I'm not in this to be a slave	Judge me now
Push the dirt, (2) me feel	Used to be (7) to let it show, bow down, bow
Locate (3) swallows life	down
Night bird you build my world	A king in my own mind
And then I close my eyes	Everything's in place
And then I close my eyes!	So much brighter from today
Judge me now	A king in my own mind
Used to be (4) to let it show, bow down	Judge me now
A (5) in my own mind	A king in my own mind!
Everything's in place	Judge me now
So much brighter from today	A (8) in my own mind!
Drown the monsters	Judge me now
Make all bad dreams go away	Used to be afraid to let it show, bow down, bow down
Whatever it (6) to keep your hands free	A (9) in my own mind
Open scars	Everything's in place
The quiet place	So much brighter from today
All the bridges fall to the ground	A king in my own mind
And you say you've sacrificed!
