

Fill in the gaps

Breathe your (1) (2) my lungs	(Way, way, way)
In the back of the car with you I (3)	And then you (18) it all away
(4) the sun	(Way, way, way, way)
Still not too old to die young	So lovers (19) on to everything
The lovers hold on to everything	And others hold to anything
And others hold on to anything	So lovers (20) on to everything
I (5) your (6) around a figure eight	And others hold to anything
I need you (7) (8) I can take	I chased your love around a (21) eight
You (9) forever and a day	I need you (22) than I can take
And then you take it all away	You promised (23) and a day
(Way, way, way)	And (24) you take it all away
And (10) you take it all away	I (25) your (26) around a figure
(Way, way, way, way)	eight
Place a (11) on my cheekbone	I need you more than I can take
Then you vanish me, I'm (12) in the snow	You promised forever and a day
But something tells me I'm not alone	And then you take it all away
But (13) on to everything	(Way, way, way, way)
And others hold on to anything	And then you take it all away
I chased your (15) around a (16)	(Way way, way, way)
eight	
I need you more than I can take	
You (17) forever and a day	
And then you take it all away
