

Fill in the gaps

You took my hand, you showed me how	And ever
You promised me you'd be around	Who knew
That's right	I'll keep you locked in my head
I (1) your words and I believed	Until we meet again
In (2) you (3) to me	Until we, until we meet again
That's right	And I won't forget you my friend
If someone said three (4) from now	What happened
You'd be long gone	If someone said three years from now
I'd stand up and punch them out	You'd be long gone
'cause they're all wrong	I'd stand up and punch them out
I know better	'Cause they're all wrong and
'Cause you (5) forever	That last kiss
And ever	I'll cherish
Who knew	Until we meet again
Remember when we were such fools	And time (9) it harder
And so convinced and (6) too cool	I wish I could remember
Oh no, no no	But I keep your memory
I wish I could touch you again	You (10) me in my sleep
I wish I could still call you friend	My darling, who knew
I'd give anything	My darling, my darling
When someone said count your blessings now	Who knew
For they're (7) gone	My darling, I miss you, my darling
I guess I just didn't know how	Who knew
I was all wrong	Who knew
They knew better	
Still you (8) forever
