

## Fill in the gaps

| There was a new (1) in town                         | I need you to find my way (11) to the start  |
|-----------------------------------------------------|----------------------------------------------|
| She had it all figured out (had it all figured out) | When we (12) in love things were             |
| Well I'll state something rash                      | (13) than (14) are                           |
| She had the (2) amazing smile                       | Let me back into                             |
| I bet you didn't expect that                        | Into your (15) (into your arms)              |
| She made me change my ways                          | (Oh) she's slipping away                     |
| (She (3) me change my ways)                         | I always reach when I'm (16) of words to     |
| With eyes like the sunsets, baby                    | say                                          |
| And legs that went on for days                      | All the things she does                      |
| I'm falling in love                                 | Make it seem like love                       |
| But it's (4) apart                                  | If it's just a game (just a game)            |
| I need to find my way back to the start             | I like the way that we play                  |
| When we were in love                                | I'm falling in love, but it's (17) apart     |
| Oh, things were better than (5) are                 | I (18) you to find my way back to the start  |
| Let me back into, into your arms                    | I'm falling in love, but it's (19) apart     |
| (Into your arms)                                    | I (20) you to find my way back to the start  |
| She (6) her way to the bar                          | When we were in love things were better (21) |
| I tried to (7) to her but she seemed so far         | (22) are                                     |
| (She (8) so far)                                    | Let me back into                             |
| Out of my (9) (out of my league)                    | Into your arms                               |
| I had to (10) a way to get her next to me           | Into your arms                               |
| I'm falling in love                                 | Into your arms                               |
| But it's falling apart                              | Into (23) arms                               |
