Innocent by Stereophonics

Fill in the gaps

remember (1) round the streets at night	You're innocent
I remember people talking (2) their lives	You think everything is possible
One of us never made it home that night	And nothing's gonna get you baby
Drunk and high got the better of her mind	Everything is touchable
Jenny died	And nothing's gonna beat you in this life
The setting sun (3) music on	It's alright
The (4) day was on	(Whoo hoo ho)
You can't see whit the sun in your eyes	The setting sun with music on
You're innocent	The restless day was on
You think everything is possible	You can't see with the sun in your eyes
And nothing's gonna get you baby	You're innocent
Everything is touchable	You think everything is possible
And nothing's gonna beat you in this life	And nothing's gonna get you baby
It's alright	Everything is touchable
(Whoo hoo ho)	And nothing's gonna beat you in this life
Holding (5) (6) cans in the	Everything is possible
orange lights	And nothing's gonna get you baby
Summer breeze, feeling free, kissing the first time	Everything is touchable
One of us (7) made it home that night	And nothing's (9) beat you in this life
Easy love someone said give this stuff a try	It's alright
Jenny tried	(Whoo hoo ho)
The railway bridge, the river flowed	
With shallow water down below
