## Drops Of Jupiter (Tell Me) by Train

Fill in the gaps

Now that's she's back in the atmosphere	While you were looking for yourself out there
Vith drops of Jupiter in her hair (hey)	Can you imagine no love, pride, deep-fried chicken
She acts like summer and walks like rain	Your best friend always sticking up for you
Reminds me that there's time to change (hey)	Even when I know you're wrong
Since the return from her stay on the moon	Can you imagine no first dance, freeze-dried romanc
She listens like spring and she talks like June	Five-hour phone conversation
Hey hey)	The best soy latte that you ever had, and me?
But tell me, did you sail across the sun?	But tell me, did the wind sweep you off your feet?
Did you make it to the Milky Way	Did you finally get the chance
o see the lights all faded	To dance along the light of day
And that heaven is overrated?	And head back toward the Milky Way?
ell me, did you fall for a shooting star?	But (6) me, did you sail across the sun?
One without a permanent scar	Did you make it to the Milky Way
And then you missed me	To see the lights all faded
While you were looking for yourself out there?	And that heaven is overrated?
Now that she's back from the soul vacation	And tell me, did you fall for a shooting star?
racing her way through the	One (7) a permanent scar
1) (hey)	And (8) you missed me
She checks out Mozart while she does Tae-Bo	While you were looking for yourself?
Reminds me that there's room to grow (hey)	(Na na na)
Now that she's (2) in the atmosphere	And did you (9) get the chance
m afraid that she might think of me as	To dance along the light of day?
Plain ol' Jane told a story about a man	(Na na na)
Who was too afraid to fly so he never did land	And did you fall for a shooting star?
But (3) me, did the wind sweep you off your feet?	Fall for a shooting star?
Did you finally get the chance	(Na na na)
o dance along the light of day	And now you're lonely looking for yourself out there
And head (4) to the Milky Way?	
And tell me, did (5) blow your mind?	
Vas it everything you wanted to find?	
and then you missed me	

## Fill in the gaps

- 1. constellation
- 2. back
- 3. tell
- 4. back
- 5. Venus
- 6. tell
- 7. without
- 8. then
- 9. finally
