All T Want by A Day To Remember

Fill in the gaps

	All I want is a place to call my own
I'm always screaming my lungs out	To mend the hearts of everyone who feels alone
'Til my head starts spinning	You know to keep your hopes up high
Playing my songs is the way I cope with life	And (8) head down low
Won't (1) my voice down	All I want is a place to call my own
Know the words I speak	To (9) the (10) of everyone who
Are the thoughts I think out loud	feels alone
I like to keep things honest	You know to keep your hopes up high
I'm a safe bet like your life's staked on it for real	And your head down low
I'd hate to keep you all wondering	If you take it from me
I'm constant like the seasons	Live your life for yourself
I will (2) be forgotten man	'Cause when it's all said and done
Let's leave no words unspoken	You don't need anyone else c'mon
And save regrets for the broken	So let's get back to when
Will you even look back	Everything seemed perfect
When you think of me?	Not a worry in the world
All I want is a place to call my own	Tell me was this all worth it?
To mend the hearts of everyone who feels alone	I get what I want so everyone's always judging me
(Whoa)	I'm not afraid of anything
You know to keep your (3) up high	And I've got the whole world in front of me
And your head down low	All I want is a place to call my own
Keep your hopes up high and your (4)	To mend the hearts of everyone who feels alone
(5) low	You know to keep your hopes up high
Still got something left to prove	And your head down low
It tends to (6) things movin'	All I want is a place to call my own
While everyone around me says	To mend the hearts of everyone who feels alone
My (7) days are looming overhead	You know to keep your hopes up high
But just what the hell do they think they know?	And your head down low
I keep my head above the water	Keep your heads down low
While they drown in the undertow	Keep your heads down low
Let's leave no words unspoken	Keep your hopes up high
And save regrets for the broken	Keep your heads down low
Will you even look back
