## Fill in the gaps

## Spectrum (Say My Name) by Florence + The Machine

when we first came here		And (7) color illuminates
We were cold and we were clear		We are shining
With no (1)	on our skin	And we will never be afraid again
We were light and paper thin		Say my name
And when we first came here		And (8) color illuminates
We were cold and we were clear		We are shining
With no colours on our skin		And we will never be afraid again
Till we let the spectrum in		Say my name
Say my name		And every (9) illuminates
And every color illuminates		We are shining
We are shining		And we will never be afraid again
And we will never be afraid again		Say my name
Say my name		And every color illuminates
And every color illuminates		And we are shining
We are shining		And we will never be afraid again
And we (2) never be (3) again		Say my name
Say my name		As every color illuminates
And every color illuminates		Say my name
We are shining		As every color illuminates
And we will (4)	be afraid again	We are shining
And when we come for you		And we will never be afraid again
We'll be dressed up all in blue		Say my name
With the ocean in our arms		As every color illuminates
Kiss your eyes and (5) your palms		We are shining
And when it's time to pray		And we will never be afraid again
We'll be (6)	up all in grey	Say my name
With metal on our tongues and silver in our lungs		
Say my name
