

Fill in the gaps

I don't know who to trust, no surprise		Just takes so much out of me
Everyone it feels so far (1) from me		Take everything from the inside
Heavy (2) sift (3)	dust,	And throw it all away
and the lies		Cause I swear for the last time
Trying not to break but I'm so tired of this deceit		I won't trust myself with you
Everytime I try to (4) myself		I won't waste myself on you
Get back up on my feet		You
All I (5) think about is this		You
All the tiring time between		Waste myself on you
And how I try and I put my trust in you		You
Just takes so much out of me		You
Take everything from the inside		I'll (9) everything from the inside
And throw it all away		And throw it all away
Cause I swear for the last time		Cause I swear for the last time
I won't trust myself with you		I won't trust myself (10) you
Tension is building inside, steadily		Everything from the inside
Everyone feels so far away from me		And just throw it all away
Heavy thoughts forcing their way out of me		Cause I swear for the last time
Trying not to break but I'm so tired of this deceit		I won't trust myself with you
Everytime I try to make myself		You
Get (6) up on my feet		You
All I ever think (7) is this		
All the tiring (8) between		
And how I try and I put my trust in you
