## Part Of Me by Katy Perry

## Fill in the gaps

	This is the part of me
Days like this I want to drive away	That you're never gonna ever take away from me, no
Pack my bags and (1) your shadow fade	Now look at me, I'm sparkling
You chewed me up and spit me out	A firework, a dancing flame
Like I was poison in your mouth	You won't ever put me out again
You took my light, you drained me down	I'm glowing (oh whoa)
But that was then and this is now	So you can keep the diamond ring
Now look at me	It don't mean nothing anyway
This is the part of me	In fact you can keep everything
That you're never (2) ever take away from me,	Yeah, yeah
no	Except for me
This is the part of me	This is the part of me
That you're never gonna ever take away from me, no	That you're never gonna ever take away from me, no
Throw your sticks and (3) stones	This is the part of me
Throw your bombs and your blows	That you're never gonna ever take away (7) me,
But you're not gonna break my soul	no
This is the (4) of me	Throw your sticks and your stones
That you're never gonna ever take away from me, no	Throw your bombs and your blows
I just wanna throw my phone away	But you're not gonna break my soul
Find out who is really there for me	This is the part of me
You ripped me off, your love was cheap	That you're never (8) ever take away from me,
Was always tearing at the seams	no
I fell deep and you let me down	This is the part of me, no
But that was then and (5) is now	Away from me, no
Now look at me	This is the (9) of me, me, me
This is the part of me	No
That you're never gonna ever take away from me, no	Throw your sticks and (10) stones
This is the part of me	Throw your bombs and your blows
That you're never gonna (6) take away from me,	But you're not gonna break my soul
no	This is the part of me
Throw your sticks and your stones	That you're never gonna ever take away from me, no
Throw your bombs and your blows	
But you're not gonna break my soul	

- 1. watch
- 2. gonna
- 3. your
- 4. part
- 5. this
- 6. ever
- 7. from
- 8. gonna
- 9. part
- 10. your
