

## Fill in the gaps

| Love I get so lost, sometimes                | I get so tired of working so hard for our survival |
|--|--|
| days pass and this emptiness (1) my heart    | I look to the (6) with you to keep me awake and    |
| when I want to run away                      | alive  |
| I drive off in my car                        | and all my instincts, they return                  |
| but whichever way I go                       | and the grand facade, so soon will burn            |
| I come back to the place you are             | without a noise, without my pride                  |
| all my instincts, (2) return                 | I reach out from the inside                        |
| and the (3) facade, so soon will burn        | in your eyes                                       |
| without a noise, without my pride            | the light the heat                                 |
| I reach out from the inside                  | in your eyes                                       |
| in your eyes                                 | I am complete                                      |
| the light the heat                           | in your eyes                                       |
| in your eyes                                 | I see the doorway to a thousand churches           |
| I am complete                                | in your eyes                                       |
| in your eyes                                 | the resolution of all the fruitless searches       |
| I see the doorway to a thousand churches     | in your eyes                                       |
| in your eyes                                 | I see the light and the heat                       |
| the resolution of all the fruitless searches | in (7) eyes  |
| in your eyes                                 | oh, I want to be that complete                     |
| I see the light and the heat                 | I want to touch the light,                         |
| in (4) eyes                                  | the heat I see in your eyes                        |
| oh, I want to be that complete               | in your (8) in (9) eyes                            |
| I want to touch the light                    | in your eyes in your eyes                          |
| the heat I see in your eyes                  | in your eyes in your eyes                          |
| love, I don't like to see so much pain       |  |
| so (5) wasted and this moment keeps slipping |  |
