It's not on me, it's all on you

Walked over me, all over me  
Help me, help me doctor  
It seems to be an awful lot for me to understand  
I know I'm not a specimen  
The troubles and the mess I'm in  
I should be dead  
He said, let's all think  
Then you've had all your fun  
It's time to be a man

Think about what the people would say  
It's not on me, it's all on you  
I can't prescribe what you want me to  
You need some sleep, you better leave  
He walked over me, all over me  
Wait until tomorrow, and it's gone  
So long

(4)\_\_\_\_\_ until tomorrow, so long  
And it's gone  
Wait until tomorrow  
You beg and steal and borrow (5)\_\_\_\_\_ it's gone  
-He don't got a lot but he's got all he needs-  
I need someone to love  
-And all he's got well it's all that he needs-  
Somebody help me because  
I could hear the voices in the tube  
To get me through anything  
I do and (6)\_\_\_\_\_ will do good by me  
A little pill, a little thrill  
Should I take it? I think I will  
And anything will do (7)\_\_\_\_\_ so  
As long as it's always too good  
Either way I don't give a d\*mn  
What you (8)\_\_\_\_\_ all say  
All now boy  
It's not on me, it's all on you  
I can't deny the things I do  
I can't believe her pretty feet  
Walked over me, all over me  
It's not on me, it's all on you
