

Holding on to me

Fill in the gaps

The battle has just begun		(5)	you baby please
You tell me I'm not the only one		Don't leave me alone	
Because he's been loving you		Don't leave me alone	
And you're all carried away		Lost in a state of imagination	
But baby I can't pretend		Fighting with myself	
I'm telling you this s*it has to end		Me and no one else	
What are you running to		And I can't win the war	
Don't you make me play (1) game		I can't win the war	
You're killing me		Fighting with myself	
Whoa, It's hitting me		Burning in my hell	
Everytime you go is bringing me low		And I've been here before	
Stop bringing me low		I've been here before	
You know you're not making sense		Why can you look into my eyes and be so cold?	
No baby don't (2) me on the fence		Why don't wanna be alive if I can't hold?	
Because I'm in love with you		Why you don't like this anymore	
Just in case you didn't know		Hope I live to tell	
Lost in a state of imagination		Fighting with myself	
Fighting (3) myself		Fighting with myself	
Me and no one else		I'm fighting with myself	
And I can't win the war		Fighting (6) myself	
I can't win the war		I've been through this before	
Fighting with myself		And I know know	
Burning in my hell		That I can't win the war	
And I've been here before		I've been through this before	
I've been here before		And I know know	
Why can you look into my eyes and be so cold?		That I can't win the wa	ar
Why (I) don't wanna be alive if I (4) ho	old?	Why can you look (7)	my eyes and be so cold?
Why you don't like this anymore?		Why don't (8)	be alive if I (9)
Hope I live to tell		hold?	
Fighting with myself		Why you don't like this anymore	
Fighting with myself		Hope I live to tell	
A knife goes through a heart		Fighting with myself	
A look, a kiss, a spark		Fighting with myself	
Everyone knows the tune		I'm fighting with myself	
But they hope it never plays		Fighting with myself
