

## Fill in the gaps

| There's a whole another conversation going on | Beam me up                                 |
|---|--|
| In a parralell universe                       | Let me be lighter                          |
| Where nothing breaks and nothing hurts        | I'm tired of being a fighter               |
| There's a waltz playing frozen in time        | I think a minute's enough                  |
| Blades of grass on tiny bare feet             | Just beam me up                            |
| I look at you and you're looking at me        | In my head I see your baby blues           |
| Could you (1) me up?                          | I hear your voice and I                    |
| Give me a minute                              | I break in two and now there's             |
| I don't (2) what I'd say in it                | One of me with you                         |
| I'd probably just stare                       | So (6) I need you, can I send you a sign?  |
| Happy just to be there (3) your face          | I'll burn a candle and turn off the lights |
| Beam me up                                    | I'll pick up star and watch you shine      |
| Let me be lighter                             | Just beam me up                            |
| I'm tired of (4) a fighter                    | Give me a minute                           |
| I think a minute's enough                     | I don't know what I'd say in it            |
| Just beam me up                               | (7) probably just stare                    |
| Saw a blackbird soaring in the sky            | Happy just to be there holding your face   |
| Barely a breath I caught one last sight       | Beam me up                                 |
| Tell me that was you saying goodbye           | Let me be lighter                          |
| There are times I feel the shiver and cold    | I'm tired of being a fighter               |
| It only (5) when I'm on my own                | I think a minute's enough                  |
| That's how you tell me I'm not alone          | Beam me up                                 |
| Could you beam me up?                         | Beam me up                                 |
| Give me a minute                              | (8) me up                                  |
| I don't know what I'd say in it               | Could you beam me up?                      |
| I'd probably just stare                       |  |
| Happy just to be there holding your face      |  |
