

Fill in the gaps

I'm not gonna waste this	These (13) are gonna collide
This opportunity's mine	I want to yell it from the rooftops down
I'm sick of complaining	Until it's over, and we're older
About a beautiful life	So take me, but go slow
How did we get here?	Let me hide somewhere I know
Did we forget all the things inside?	And let this seed grow
And how do we (1) here?	Until we (14) call this home
Do we embrace all the (2) denied?	So (15) me, but go slow
I feel so (3) tonight	Let me hide (16) I know
You got me feeling sublime	And let this seed grow
I (4) to yell it from the rooftops down	Until we finally call this home
Until (5) over, and we're older	If I was to die tonight
For my entertainment	Would it tear you apart?
You (6) a whimsical lie	Would you yell it (17) the rooftops down?
To keep me complacent	(18) it's over, and (19)
You knock me down with a smile	older
How did we get here?	I feel so alive tonight
How do we (7) everything's alright?	You've got me feeling sublime
And how do we stay here?	I want to (20) it (21) the rooftops down
Do we (8) all the (9) inside?	Until it's over, and (22) older
I (10) so alive tonight	Like (23) and cyanide
You got me feeling sublime	I want to (24) it collide
I want to (11) it from the rooftops down	I'm (25) yell it from the (26)
Until it's over, and we're older	down
(12) sugar and cyanide	Until (27) over, and we're older
