Before the worst by The Script

In this Grafton Street on a rainy night

Fill in the gaps

t's been a while since the two of us talked	I was (7) on one knee and you were mine for life
About a week since the day that you walked	We were thinking we would never be apart
Knowing things would never be the same	With your name tattooed across my heart
Nith your empty heart and mine full of pain	Who would have thought it would end up like this?
So explain to me, how we came to this	Where everything we talked about is gone
Take it back to the night we kissed	And the only chance we have of moving on
t was Dublin city on a Friday night	Is try to take it back before it all went wrong
There were vodkas and coke, I was Guinness all night	Before the worst, before we mend
Ne (1) sitting with our backs against the world	Before our hearts decide
Saying things that we thought but never heard	It's time to (8) again
Who would have thought it would end up like this?	Before too late
(2) (3) we talked	Before too long
bout is gone?	Let's try to take it back before it all went wrong
And the only chance we have of moving on	And if the clouds don't clear
s try to take it back (4) it all went wrong	Then we'll rise above it, we'll rise above it
Before the worst, before we mend	Heaven's gate is so near
Before our hearts decide	Come walk with me through
t's time to love again	Just like we used to, (9) like we used to
Before too late	Let's take it back before it all went wrong
(5) too long	Before the worst, before we mend
_et's try to take it back before it all went wrong	Before our hearts decide
There was a time	It's time to love again
That we'd (6) up all night	Before too late
Best friends yet talking till the daylight	(10) too long
Took the joys alongside the pain	Let's try to take it back before it all went wrong
With not much to loose, but so much to gain	
Are you hearing me? Because I don't wanna miss you	
You were adrift on memory bliss
