Before the worst by The Script

In this Grafton Street on a rainy night

Fill in the gaps

It's (1) a while since the two of us talked	I was down on one knee and you were mine for life
About a week since the day that you walked	We were thinking we would never be apart
Knowing things would never be the same	With your name tattooed across my heart
With your empty heart and mine full of pain	Who would have thought it would end up like this?
So explain to me, how we came to this	Where everything we talked about is gone
Take it back to the night we kissed	And the only chance we have of moving on
It was Dublin city on a Friday night	Is try to take it back before it all went wrong
There were vodkas and coke, I was Guinness all night	Before the worst, before we mend
We were sitting with our (2) against the world	Before our hearts decide
Saying things that we thought but never heard	It's time to love again
Who would (3) thought it would end up like this?	Before too late
Where everything we talked about is gone?	Before too long
And the only chance we have of moving on	Let's try to take it back before it all went wrong
Is try to take it back before it all went wrong	And if the clouds don't clear
(4) the worst, before we mend	Then we'll rise above it, we'll rise above it
(5) our hearts decide	Heaven's gate is so near
It's time to (6) again	Come walk (9) me through
Before too late	Just like we used to, just like we used to
Before too long	Let's take it back before it all went wrong
Let's try to take it back before it all (7) wrong	Before the worst, before we mend
There was a time	Before our hearts decide
That we'd stay up all night	It's (10) to love again
Best (8) yet talking till the daylight	Before too late
Took the joys alongside the pain	Before too long
With not much to loose, but so much to gain	Let's try to take it back before it all went wrong
Are you hearing me? Because I don't wanna miss you	
You were adrift on memory bliss	

- 1. been
- 2. backs
- 3. have
- 4. Before
- 5. Before
- 6. love
- 7. went
- 8. friends
- 9. with
- 10. time
