## Fill in the gaps

|  | Just a touch of the fire burning so bright        |
|--|---|
| Lying here with you so close to me                   | I don't want to mess this thing up                |
| It's hard to fight (1) feelings                      | I don't want to push too far                      |
| when it feels so hard to breathe                     | Just a shot in the dark that you just might       |
| Caught up in this moment                             | be the one I've been waiting for my whole life    |
| Caught up in (2) smile                               | So baby I'm alright with just a kiss goodnight    |
| I never (3) up to anyone                             | No I (7) want say goodnight                       |
| So hard to (4) back                                  | I know it's time leave but you'll be in my dreams |
| when I'm holding you in my arms                      | Tonight   |
| We don't need to rush this                           | Tonight   |
| Let's just take it slow                              | Tonight   |
| Just a kiss on your lips in the moonlight            | Just a kiss on your lips in the moonlight         |
| Just a touch of the fire burning so bright           | Just a touch of the fire burning so bright        |
